(2) Basis of Financial Statement Presentation

Principles of Consolidation

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles ("GAAP") in the United States of America have been condensed or omitted in accordance with these rules and regulations. The accompanying condensed consolidated balance sheet as of January 30, 2021 has been derived from the Company's audited financial statements for the fiscal year ended January 30, 2021. The information furnished in the interim condensed consolidated financial statements includes normal recurring adjustments and reflects all adjustments which, in the opinion of management, are necessary for a fair presentation of these financial statements. Although management believes the disclosures and information presented are adequate, these interim condensed consolidated financial statements should be read in conjunction with the Company's most recent audited financial statements and notes thereto included in its annual report on Form 10-K for fiscal year ended 2020. Operating results for the three and nine-month periods ended October 30, 2021 are not necessarily indicative of the results that may be expected for fiscal year ending January 29, 2022.

The accompanying condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. Intercompany accounts and transactions have been eliminated in consolidation.

Fiscal Year

The Company's fiscal year ends on the Saturday nearest to January 31 and results in either a 52-week or 53-week fiscal year. References to years in this report relate to fiscal years, rather than to calendar years. The Company's most recently completed fiscal year, fiscal 2020, ended on January 30, 2021, and consisted of 52 weeks. Fiscal 2021 will end January 29, 2022 and will contain 52 weeks. The three and nine-month periods ended October 30, 2021 and October 31, 2020 each consisted of 13 and 39 weeks.

Recently Adopted Accounting Standards

In June 2016, the FASB issued guidance on the accounting for credit losses on financial instruments, Topic 326, Financial Instruments—Credit Losses (Accounting Standards Update ("ASU" 2016-13)). Topic 326 was subsequently amended by ASU 2019-04, Codification Improvements to Topic 326, Financial Instruments—Credit Losses, Topic 815, Derivatives and Hedging, and Topic 825, Financial Instruments and ASU 2019-11, Codification Improvements to Topic 326, Financial Instruments—Credit Losses. Among other provisions, this guidance introduces a new impairment model for most financial assets and certain other instruments. For trade and other receivables, held-to-maturity debt securities, loans and other instruments, entities will be required to use a forward-looking "expected loss" model that will replace the current "incurred loss" model that will generally result in the earlier recognition of allowances for losses. The Company adopted this guidance during the first quarter of fiscal 2021 and did not have a material impact on the Company's condensed consolidated financial statements.

In August 2018, the Financial Accounting Standards Board ("FASB") issued Intangibles—Goodwill and Other—Internal-Use Software, Subtopic 350-40 (ASU 2018-15), which aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. The Company adopted this standard during the first quarter of fiscal 2020 on a prospective basis. The adoption of ASU 2018-15 did not have a material impact on the Company's condensed consolidated financial statements.

Recently Issued Accounting Pronouncements

In March 2020, the FASB issued ASU 2020-04, Reference Rate Reform ("Topic 848"): Facilitation of the Effects of Reference Rate Reform on Financial Reporting. This update provides optional expedients and exceptions for applying generally accepted accounting principles to certain contract modifications and hedging relationships that reference London Inter-bank Offered Rate (LIBOR) or another reference rate expected to be discontinued. Topic 848 is effective upon issuance and generally can be applied through December 31, 2022. The Company is currently evaluating the impact of Topic 848 on the consolidated financial statements.

In January 2017, the FASB issued ASU 2017-04, Intangibles-Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment (ASU 2017-14). This new guidance eliminates the requirement to calculate the implied fair value of goodwill to measure a

goodwill impairment charge. Instead, entities will record an impairment charge based on the excess of a reporting unit's carrying amount over its fair value. The changes are effective for smaller reporting companies for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years, and early adoption is permitted. The Company is currently evaluating the impact that this guidance will have on its consolidated financial statements.

(3) Revenue

Revenue Recognition

Revenue is recognized when control of the promised merchandise is transferred to customers in an amount that reflects the consideration the Company expects to receive in exchange for the merchandise, which is upon shipment. Revenue for services is recognized when the services are provided to the customer. Revenue is reported net of estimated sales returns, credits and incentives, and excludes sales taxes. Sales returns are estimated and provided for at the time of sale based on historical experience. As of October 30, 2021 and January 30, 2021, the Company recorded a merchandise return liability of \$6,223,000 and \$5,271,000, included in accrued liabilities, and a right of return asset of \$3,139,000 and \$2,749,000, included in Prepaid Expenses and Other.

A performance obligation is a promise in a contract to transfer a distinct good or service to the customer and is the unit of account in Accounting Standards Codification ("ASC") 606. A contract's transaction price is allocated to each distinct performance obligation and recognized as revenue when, or as, the performance obligation is satisfied. Substantially all of the Company's sales are single performance obligation arrangements for transferring control of merchandise to customers.

In accordance with ASC 606-10-50, the Company disaggregates revenue from contracts with customers by significant product groups and timing of when the performance obligations are satisfied. A reconciliation of disaggregated revenue by segment and significant product group is provided in Note 10 - "Business Segments and Sales by Product Group."

As of October 30, 2021, the Company had no remaining performance obligations for contracts with original expected terms of one year or more. The Company has applied the practical expedient to exclude the value of remaining performance obligations for contracts with an original expected term of one year or less.

Accounts Receivable

The Company's accounts receivable is comprised primarily of customer receivables from its ValuePay program, but also includes vendor receivables, credit card receivables and other receivables. The Company's ValuePay program is an installment payment program that entitles customers to purchase merchandise and generally pay for the merchandise in two or more equal monthly credit card installments. The Company has elected the practical expedient to not adjust the promised amount of consideration for the effects of a significant financing component when the payment terms are less than one year. Accounts receivable consist primarily of amounts due from customers for merchandise sales and from credit card companies and are reflected net of reserves for estimated uncollectible amounts. As of October 30, 2021 and January 30, 2021, the Company had approximately \$43,117,000 and \$49,736,000 of net receivables due from customers under the ValuePay installment program and total reserves for estimated uncollectible amounts of \$2,629,000 and \$3,132,000. The decrease in the total reserve as a percentage of receivables is primarily due to the Company's recently shortened active collections cycle, whereby the Company is pursuing collection for a shorter period prior to selling and writing off its receivables while yielding a comparable recovery rate.

(4) Fair Value Measurements

GAAP utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to observable quoted prices (unadjusted) in active markets for identical assets and liabilities (Level 1 measurement), then priority to quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market (Level 2 measurement) and the lowest priority to unobservable inputs (Level 3 measurement).

The Company entered into a foreign currency forward contract on October 26, 2021 to reduce the short-term effects of foreign currency fluctuations on their investment in German subsidiary 123tv. The Company's primary objective in holding derivatives is to

reduce the volatility of their investment in 123tv associated with changes in foreign currency exchange rates. The Company's derivatives expose the Company to credit risk to the extent that the counterparties may be unable to meet the terms of the arrangement. The Company does, however, seek to mitigate such risks by limiting our counterparties to major financial institutions. Management does not expect material losses as a result of defaults by counterparties.

The fair values of the Company's derivative instruments classified as Level 2 financial instruments and the line items within the accompanying consolidated balance sheets to which they were recorded are summarized as of October 30, 2021 and January 30, 2021, follows:

The Company closely manages its cash resources and working capital. The Company attempts to manage its inventory receipts and reorders in order to ensure its inventory investment levels remain commensurate with the Company's current sales trends. The Company also monitors the collection of its credit card and ValuePay installment receivables and manages vendor payment terms in order to more effectively manage the Company's working capital which includes matching cash receipts from the Company's customers to the extent possible with related cash payments to the Company's vendors. ValuePay remains a cost-effective promotional tool for the Company. The Company's ability to fund operations, debt service and capital expenditures in the future will be dependent on its ability to generate cash flow from operations, maintain or improve margins and to use available funds from its Siena Loan Agreement. The Company's ability to borrow funds is dependent on its ability to maintain an adequate borrowing base and its ability to meet its credit facility's covenants (as described above). Accordingly, if the Company does not generate sufficient cash flow from operations to fund its working capital needs, debt service payments and planned capital expenditures and meet credit facility covenants, and its cash reserves are depleted, the Company may need to take actions that are within the Company's control, such as further reductions or delays in capital investments, additional reductions to the Company's workforce, reducing or delaying strategic investments or other actions. Additional closings occurred on May 22, 2020, June 8, 2020, June 12, 2020 and July 11, 2020 and the Company received gross proceeds of \$2,500,000. The Company incurred approximately \$190,000 of issuance costs during the first half of fiscal 2020. The Warrants are indexed to the Company's publicly traded stock and were classified as equity. The par value of the shares issued was recorded within common stock, with the remainder of the proceeds, less issuance costs, recorded as additional paid in capital in the accompanying condensed consolidated balance sheets. The Company used the proceeds for general working capital purposes.

The purchasers consisted of the following: Invicta Media Investments, LLC, Michael and Leah Friedman and Hacienda Jackson LLC. Invicta Media Investments, LLC is owned by Invicta Watch Company of America, Inc. ("IWCA"), which is the designer and manufacturer of Invicta-branded watches and watch accessories, one of the Company's largest and longest tenured brands. Michael and Leah Friedman are owners and officers of Sterling Time, LLC ("Sterling Time"), which is the exclusive distributor of IWCA's watches and watch accessories for television home shopping and the Company's long-time vendor. IWCA is owned by the Company's Vice Chair and director, Eyal Lalo, and Michael Friedman also serves as a director of the Company. A description of the relationship between the Company, IWCA and Sterling Time is contained in Note 15 - "Related Party Transactions." Further, Invicta Media Investments, LLC and Michael and Leah Friedman comprise a "group" of investors within the meaning of Section 13(d)(3) of the Securities and Exchange Act of 1934, as amended, that is the Company's largest shareholder.

The warrants have an exercise price per share of \$2.66 and are exercisable at any time and from time to time from six months following their issuance date until April 14, 2025. The Company has included a blocker provision in the purchase agreement whereby no purchaser may be issued shares of the Company's common stock if the purchaser would own over 19.999% of the Company's outstanding common stock and, to the extent a purchaser in this offering would own over 19.999% of the Company's outstanding

common stock, that purchaser will receive fully-paid warrants (in contrast to the coverage warrants that will be issued in this transaction, as described above) in lieu of the shares that would place such holder's ownership over 19.999%. Further, the Company included a similar blocker in the warrants (and amended the warrants purchased by the purchasers on May 2, 2019, if any) whereby no purchaser of the warrants may exercise a warrant if the holder would own over 19.999% of the Company's outstanding common stock.

During the third quarter of fiscal 2020, the fully-paid warrants were exercised for the purchase of 114,698 shares of the Company's common stock.

Stock Compensation Plans

The Company's 2020 Equity Incentive Plan ("2020 Plan") provides for the issuance of up to 3,000,000 shares of the Company's common stock. The 2020 Plan is administered by the human resources and compensation committee of the board of directors and provides for awards for employees, directors and consultants. All employees and directors of the Company and its affiliates are eligible to receive awards under the 2020 Plan. The types of awards that may be granted under the 2020 Plan include incentive and non-qualified stock options, stock appreciation rights, restricted stock, restricted stock units, and other stock-based awards. Stock options may be granted to employees at such exercise prices as the human resources and compensation committee may determine but not less than 100% of the fair market value of the common stock as of the date of grant (except in the limited case of "substitute awards" as defined by the 2020 Plan). No stock option may be granted more than 10 years after the effective date of the respective plan's inception or be exercisable more than 10 years after the date of grant. Except for market-based options, options granted generally vest over three years in the case of employee stock options and vest immediately on the date of grant in the case of director options and have contractual terms of 10 years from the date of grant. The 2020 Plan was approved by the Company's shareholders at the 2020 Annual Meeting of Shareholders on July 13, 2020.

The Company also maintains the 2011 Omnibus Incentive Plan ("2011 Plan"). Upon the adoption and approval of the 2020 Plan, the Company ceased making awards under the 2011 Plan. Awards outstanding under the 2011 Plan continue to be subject to the terms of the 2011 Plan, but if those awards subsequently expire, are forfeited or cancelled or are settled in cash, the shares subject to those awards will become available for awards under the 2020 Plan. Similarly, the Company ceased making awards under its 2004 Omnibus Stock Plan ("2004 Plan") on June 22, 2014, but outstanding awards under the 2004 Plan remain outstanding in accordance with its terms.

Stock-Based Compensation - Stock Options

Stock-based compensation expense related to stock option awards was \$64,000 and \$5,000 for the third quarters of fiscal 2021 and fiscal 2020 and \$116,000 and \$116,000 for the first nine months of fiscal 2021 and 2020. The Company has not recorded any income tax benefit from the exercise of stock options due to the uncertainty of realizing income tax benefits in the future.

The fair value of each time-based vesting option award is estimated on the date of grant using the Black-Scholes option pricing model that uses assumptions noted in the following table. Expected volatilities are based on the historical volatility of the Company's stock. Expected term is calculated using the simplified method taking into consideration the option's contractual life and vesting terms. The Company uses the simplified method in estimating its expected option term because it believes that historical exercise data cannot be accurately relied upon at this time to provide a reasonable basis for estimating an expected term due to the extreme volatility of its stock price and the resulting unpredictability of its stock option exercises. The risk-free interest rate for periods within the contractual life of the option is based on the comparable U.S. Treasury yield curve in effect at the time of grant. Expected dividend yields were not used in the fair value computations as the Company has never declared or paid dividends on its common stock and currently intends to retain earnings for use in operations.

The total fair value of restricted stock units vested during the first nine months of fiscal 2021 and fiscal 2020 was \$1,255,000 and \$316,000. The estimated fair value of restricted stock units is based on the grant date closing price of the Company's stock for time-based vesting awards and a Monte Carlo valuation model for market-based vesting awards.

The Company has granted time-based restricted stock units to certain key employees as part of the Company's long-term incentive program. The restricted stock units generally vest in three equal annual installments beginning one year from the grant date and are being amortized as compensation expense over the three-year vesting period. The Company has also granted restricted stock units to non-employee directors as part of the Company's annual director compensation program. Each restricted stock unit grant vests or vested on the day immediately preceding the next annual meeting of shareholders following the date of grant. The grants are amortized as director compensation expense over the twelve-month vesting period.

The Company granted 77,408 performance share units to the Company's Chief Executive Officer as part of the Company's long-term incentive program during the first quarter of fiscal 2021. The number of shares earned is based on the Company's achievement of pre-established goals for sales growth over the measurement period from January 31, 2021 to January 29, 2022. Any earned performance share units will vest on February 3, 2024, so long as the executive's service has been continuous through the vest date. The number of units that may actually be earned and become eligible to vest pursuant to this award can be between 0% and 200% of the target number of performance share units. The Company recognizes compensation expense on these performance share units ratably over the requisite performance period of the award to the extent management views the performance goals as probable of attainment. The grant date fair value of these performance share units is based on the grant date closing price of the Company's stock.

The Company granted 146,000 performance share units to the Company's Chief Executive Officer as part of the Company's long-term incentive program during the first quarter of fiscal 2020. Any earned performance share units will vest on January 28, 2023, so long as the executive's service has been continuous through the vest date. The number of units that may actually be earned and become eligible to vest pursuant to this award can be between 0% and 125% of the target number of performance share units. The Company recognizes compensation expense on these performance share units ratably over the requisite performance period of the award to the extent management views the performance goals as probable of attainment. The grant date fair value of these performance share units is based on the grant date closing price of the Company's stock.

(9) Net Income (Loss) Per Common Share

Basic net loss per share is computed by dividing reported loss by the weighted average number of shares of common stock outstanding for the reported period. Diluted net income per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock of the Company during reported periods.

- (b) For the three and nine-month periods ended October 30, 2021 and October 31, 2020 there were 658,000 and 796,000 and 992,000 and 476,000 incremental in-the-money potentially dilutive common shares outstanding. The incremental in-the-money potentially dilutive common stock shares are excluded from the computation of diluted earnings per share, as the effect of their inclusion would be anti-dilutive.

(10) Business Segments and Sales by Product Group

During fiscal year 2019, the Company changed its reportable segments into two reporting segments: "ShopHQ" and "Emerging Business." In light of strategic shifts in the Company's emerging businesses, the Company's Chief Executive Officer, the chief operating decision maker, began reviewing operating results of the Emerging Business segment separately from its core business, ShopHQ. The chief operating decision maker is the Company's Chief Executive Officer. These segments reflect the way the Company's chief operating decision maker evaluates the Company's business performance and manages its operations. Substantially all of the Company's sales are made to customers residing in the United States.

The Company does not allocate assets between the segments for its internal management purposes, and as such, they are not presented here. There were no significant inter-segment sales or transfers during the first nine months of fiscal 2021 and fiscal 2020. The Company allocates corporate support costs (such as finance, human resources, warehouse management and legal) to its operating segments based on their estimated usage and based on how the Company manages the business.

ShopHQ Reporting Segment

The ShopHQ segment encompasses the Company's flagship nationally distributed entertainment television network. ShopHQ informs, promotes, demonstrates and sells its products to consumers using interactive video across multiple sales channels including linear television, online streaming, mobile and social platforms, brick and mortar retail, and OTT and CTV platforms such as Roku, AppleTV and Samsung connected televisions.

Emerging Business Reporting Segment

The Emerging Business segment consists of the Company's early developing brands and business models. This segment includes the Company's owned and operated consumer brands that include Christopher & Banks, J.W. Hulme, Cooking with Shaquille O'Neal, Kate & Mallory, Live Fit MD and TheCloseout.com and the Company's media commerce services brand iMedia digital services and niche television networks ShopBulldogTV and ShopHealthHQ.

(11) Leases

The Company leases certain property and equipment, such as transmission, production, satellite transponder and office equipment. The Company also leases office space used by its Emerging segment's iMedia Digital Services and retail space used by its Emerging

segment consumer brands, J.W. Hulme and Christopher Banks. The Company determines if an arrangement is a lease at inception. Leases with an initial term of 12 months or less are not recorded on the accompanying condensed consolidated balance sheets.

Right-of-use assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the Company's obligation to make lease payments arising from the lease. Operating lease liabilities and right-of-use assets are recognized at commencement date based on the present value of lease payments over the lease term. As the Company's leases do not provide an implicit rate, the Company uses its incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments. Some of the Company's leases include options to extend the term, which is only included in the lease liability and right-of-use assets calculation when it is reasonably certain the Company will exercise that option. As of October 30, 2021, the lease liability and right-of-use assets did not include any lease extension options.

The Company has lease agreements with lease and non-lease components and has elected to account for these as a single lease component. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

The components of lease expense were as follows:

(12) Income Taxes

As of January 30, 2021, the Company had federal net operating loss carryforwards (“NOLs”) of approximately \$397 million which may be available to offset future taxable income. The Company’s federal NOLs generated prior to 2018 expire in varying amounts each year from 2023 through 2037 in accordance with applicable federal tax regulations and the timing of when the NOLs were incurred. The Company’s federal NOLs generated in 2018 and after can be carried forward indefinitely.

In the first quarter of fiscal 2011, the Company had a change in ownership (as defined in Section 382 of the Internal Revenue Code) as a result of the issuance of common stock coupled with the redemption of all the Series B preferred stock held by GE Capital Equity Investments, Inc. Sections 382 and 383 limit the annual utilization of certain tax attributes, including NOL carryforwards, incurred prior to a change in ownership. Currently, the limitations imposed by Sections 382 and 383 are not expected to impair the Company’s ability to fully realize its NOLs; however, the annual usage of NOLs incurred prior to the change in ownership is limited. In addition, if the Company were to experience another ownership change, as defined by Sections 382 and 383, its ability to utilize its NOLs could be further substantially limited and depending on the severity of the annual NOL limitation, the Company could permanently lose its ability to use a significant amount of its accumulated NOLs. The Company currently has recorded a full valuation allowance for its net deferred tax assets. The ultimate realization of these deferred tax assets and related limitations depend on the ability of the Company to generate sufficient taxable income in the future, as well as the timing of such income.

Shareholder Rights Plan

The Company has adopted a Shareholder Rights Plan to preserve the value of certain deferred tax benefits, including those generated by net operating losses. On July 10, 2015, the Company declared a dividend distribution of one purchase right (a “Right”) for each outstanding share of the Company’s common stock to shareholders of record as of the close of business on July 23, 2015 and issuable as of that date. On July 13, 2015, the Company entered into a Shareholder Rights Plan (the “Rights Plan”) with Wells Fargo Bank, N.A., a national banking association, with respect to the Rights. Except in certain circumstances set forth in the Rights Plan, each Right entitles the holder to purchase from the Company one one-thousandth of a share of Series A Junior Participating Cumulative Preferred Stock, \$0.01 par value, of the Company (“Preferred Stock” and each one one-thousandth of a share of Preferred Stock, a “Unit”) at a price of \$90.00 per Unit. On July 12, 2019, the Company’s shareholders re-approved the Rights Plan at the 2019 annual meeting of shareholders. The Rights Plan will expire on the close of business on the date of the 2022 annual meeting of shareholders, unless the Rights Plan is re-approved by shareholders prior to expiration.

(13) Litigation

The Company is involved from time to time in various claims and lawsuits in the ordinary course of business, including claims related to products, product warranties, contracts, employment, intellectual property, consumer protection and regulatory matters. In the opinion of management, none of the claims and suits, either individually or in the aggregate, are reasonably likely to have a material adverse effect on the Company’s operations or consolidated financial statements.

(14) Related Party Transactions

Relationship with Sterling Time, Famjams, Invicta Watch Company of America, and Retailing Enterprises

On June 9, 2021, the Company entered into a Confidential Vendor Exclusivity Agreement (the “Famjams Agreement”) with Famjams Trading LLC (“Famjams”), one of the Company’s ten largest vendors, pursuant to which Famjams granted the Company the exclusive right to market, promote and sell products using the Medic Therapeutics and Safety Vital brand names and any substantially similar or directly competitive goods or services through the Company’s television networks, website and mobile applications, platforms on social media and mobile host sites and brick and mortar retailing locations in North and South America, Europe and Asia during the five-year exclusivity period, unless earlier terminated pursuant to the terms of the Famjams Agreement. Until the expiration of the exclusivity period, such license is exclusive to the IMBI retailing channels. During the final year of the term of the Famjams Agreement, the parties are required to negotiate in good faith the terms of a five-year extension.

Pursuant to the Famjams Agreement, the Company agreed to issue to Famjams \$1.5 million of RSUs, priced at the closing bid price of the Company’s common stock on the Nasdaq Capital Market on the trading date immediately preceding the date of the Famjams Agreement – a total of 147,347 RSUs. One-fifth of the RSUs will vest annually, beginning on June 9, 2021 and ending on June 9, 2025. Famjams also agreed to provide the Company with a revolving line of credit in the amount of \$2.0 million during the term of the Famjams Agreement. The \$1.5 million aggregate market value on the date of the award is being amortized as cost of sales over the five-year commercial term.

The Company also agreed, pursuant to the Famjams Agreement, to deliver a cash deposit of \$6.0 million to Famjams to be used as working capital by Famjams. This deposit will bear interest in the amount of 5% per annum and will become due and payable in full at the end of the term of the Famjams Agreement, or if the Famjams Agreement is extended for a five-year period, at the end of such renewal period. In the event of a default, the Company agreed that the intellectual property and trademarks associated with the Famjams products subject to the Famjams Agreement pledged as collateral fully satisfies any due and owing working capital amount owed by Famjams to the Company. Famjams is an affiliate of Michael Friedman, a director of the Company.

Additionally on June 9, 2021, iMedia Brands, Inc. entered into a Confidential Vendor Exclusivity Agreement (the “IWCA Agreement”) with Invicta Watch Company of America, Inc. During the final year of the term of the IWCA Agreement, the parties are

required to negotiate in good faith the terms of a five-year extension. This new agreement permits the Company to extend its exclusive relationship with one of its largest vendors, providing critical long-term stability to the Company's key vendor ranks.

Pursuant to the IWCA Agreement, the Company agreed to issue to IWCA \$4.5 million of RSUs, priced at the closing bid price of the Company's common stock on the Nasdaq Capital Market on the trading date immediately preceding the date of the IWCA Agreement – a total of 442,043 RSUs. One-fifth of the RSUs will vest annually, beginning on June 9, 2021 and ending on June 9, 2025. IWCA also agreed to provide the Company with a revolving line of credit in the amount of \$3.0 million during the first, second and third quarters of each of the Company's fiscal years during the term of the IWCA Agreement and \$4.0 million during the fourth quarter of each of the Company's fiscal years during the term of the IWCA Agreement. IWCA is an affiliate of Eyal Lalo, the Company's Vice Chair.

(15) Restructuring Costs

During the first quarter of fiscal 2020, the Company implemented and completed a cost optimization initiative, which eliminated positions across the Company's ShopHQ segment, the majority of whom were employed in customer service, order fulfillment and television production. As a result of the first quarter fiscal 2020 cost optimization initiative, the Company recorded restructuring charges of \$209,000 for the three-month periods ended May 2, 2020, which relate primarily to severance and other incremental costs associated with the consolidation and elimination of positions across the Company's ShopHQ segment. These initiatives were substantially completed as of July 31, 2021.

(16) Business Acquisitions

Synacor's Portal and Advertising Business Acquisition

On July 30, 2021, the Company closed on the acquisition of Synacor's Portal and Advertising business segment. This acquisition allows the Company to leverage its interactive video expertise and national television promotional power, as well as its merchandising, customer solutions and fulfillment capabilities, to offer advertisers and consumer brands differentiated digital services that the Company believes will accelerate its timeline to become the leading single-source partner to advertisers seeking to use interactive video to drive growth. Synacor Portal and Advertising, which iMedia has combined with its business Float Left, has been renamed to iMedia Digital Services ("iMDS"). iMDS is a leading video advertising platform monetizing 200+ million monthly users for its publishers by utilizing its proprietary technologies, first-party customer shopping data and interactive video services to drive engagement, traffic and conversion.

The acquisition of the Portal and Advertising business was accounted for in accordance with ASC 805-10 "Business Combinations". The total consideration transferred on the date of the transaction consisted of \$20 million cash, the issuance of a \$10 million seller note and assumed liabilities with a fair value of \$7.3 million. The seller note is payable in \$1 million quarterly installments over the next ten calendar quarters beginning with September 30, 2021. The seller note bears interest at rates between 6% and 11% depending upon the period outstanding. The allocation of the purchase price was based upon a preliminary valuation, and the Company's estimates and assumptions of the assets acquired, and liabilities assumed are subject to change within the measurement period pending the finalization of a valuation.

Goodwill and intangible assets have been measured as the excess of the total consideration over the amounts assigned to the identifiable assets acquired and liabilities assumed in the amount of \$28.4 million, which was primarily related to the acquisition of customer relationships, technology platforms, and goodwill.

The preliminary purchase price allocation may be adjusted, as necessary, up to one year after the acquisition closing date if management obtains additional information regarding asset valuations and liabilities assumed.

Christopher & Banks Transaction

Christopher & Banks is a specialty brand of privately branded women's apparel and accessories. The Christopher & Banks brand was previously owned by Christopher & Banks Corporation, which filed voluntary petitions for relief under Chapter 11 of the Bankruptcy Code in January 2021. On March 1, 2021, the Company entered into a licensing agreement with ReStore Capital, a Hilco Global company, whereby the Company will operate the Christopher & Banks business throughout all sales channels, including digital, television, catalog, and brick and mortar retail, effective March 1, 2021. On March 1, 2021, the Company acquired all of the assets of Christopher & Banks, LLC ("C&B"). The acquisition of C&B was accounted for in accordance with ASC 805-10 "Business Combinations". The total consideration transferred on the date of the transaction consisted of \$3.5 million cash and assumed liabilities with a fair value of \$4.2 million. In addition, the Company is obligated to issue common shares to Hilco with a value of \$1.5 million as additional consideration. The Company expects to issue these shares in the fourth quarter of 2021. The preliminary allocation of the purchase price was based upon a preliminary valuation, and the Company's estimates and assumptions of the assets acquired, and liabilities assumed are subject to change within the measurement period pending the finalization of a valuation.

Goodwill and intangible assets have been measured as the excess of the total consideration over the amounts assigned to the identifiable assets acquired and liabilities assumed in the amount of \$3.6 million, which was primarily related to the acquisition of the product designs, brand and customer list.

The preliminary purchase price allocation may be adjusted, as necessary, up to one year after the acquisition closing date if management obtains additional information regarding asset valuations and liabilities assumed.

The Closeout.com Acquisition

On February 5, 2021, the Company became a controlling member under the limited liability company agreement for TCO, LLC (“TCO”), a Delaware limited liability company entered into between the Company and LAKR Ecomm Group LLC (“LAKR”) to operate TheCloseout.com, an online marketplace that was previously owned in part by Invicta Media Investments. LAKR is a newly formed company indirectly owned by Invicta Media Investments, LLC and The Closeout.com LLC. The initial Board of Directors of TCO includes Tim Peterman, the Chief Executive Officer and a director of the Company, Landel Hobbs, the Chairman of the Board of the Company, and Eyal Lalo, a director of the Company. See Note 14 – “Related Party Transactions” for additional information regarding the Company’s relationships with Invicta Media Investments, LLC, Retailing Enterprises and Mr. Lalo.

Under the limited liability company agreement, the Company will act as the controlling member of TCO. Mr. Peterman and Mr. Hobbs, as the designees of the Company, will lead TCO, with certain significant corporate actions requiring the consent of both members. Mr. Peterman will be the Chairperson of TCO. Distributions of available cash may be made to the members at the discretion of TCO’s board of managers. In addition, beginning on February 5, 2026 and recurring every 12 months thereafter, the Company will have the right, but not the obligation, to acquire LAKR’s interest in TCO at a value determined based on financial benchmarks set forth in the TCO limited liability company agreement.

In connection with the establishment of TCO, the Company contributed assets in the form of inventory valued at \$3.5 million in exchange for a 51% interest in the TCO, and LAKR contributed assets in the form of inventory and intellectual property valued at \$3.4 million in exchange for a 49% interest in TCO. The Company also entered into a loan and security agreement with TCO, pursuant to which TCO may borrow up to \$1.0 million from the Company on a revolving basis pursuant to a promissory note bearing interest at LIBOR plus 4%, provided that the floor of this interest rate is 4.25%. The promissory note is payable on demand by the Company, may be voluntarily prepaid at any time, and must be repaid prior to TCO making any distributions, other than advances for tax withholdings, to its members.

Non-controlling Interests

Non-controlling interests (“NCI”) represent equity interests owned by outside parties. NCI may be initially measured at fair value or at the NCI’s proportionate share of the recognized amounts of the acquiree’s identifiable net assets. The choice of measurement is made on a transaction by transaction basis. iMedia elected to measure each NCI at its proportionate share of the recognized amounts of the acquiree’s identifiable net assets. The share of net assets attributable to NCI are presented as a component of equity. Their share of net income or loss and comprehensive income or loss is recognized directly in equity. Total comprehensive income or loss of subsidiaries is attributed to the shareholders of the Company and to the NCI, even if this results in the NCI having a deficit balance.

ShopHQ Reporting Segment

ShopHQ offers its merchandise, which includes products in Jewelry and Watches, Home, Beauty and Health, and Fashion and Accessories across all its sales channels. Our merchandising strategy is focused on delivering a balanced assortment of profitable products presented in an engaging, entertaining, shopping-centric format using our unique expertise in storytelling and “live on location” broadcasting. We are also focused on growing our high lifetime value customer file and growing our revenues, through social, mobile, online, OTT and CTV platforms, as well as leveraging our capacity, system capability and expertise in distribution and product development to generate new business relationships. We believe these initiatives will position us to deliver a more engaging and enjoyable customer experience with product offerings and service that exceed customer expectations. While changes in this product mix do occur as a result of customer demand during certain times of the year, our legacy strengths in Jewelry and Watches continue to represent our largest merchandise category. Our merchants focus on diversifying our merchandise assortment within our existing product categories and offering new products in new assortments. We offer customers proprietary brands and merchandise as well as exclusive and/or less distributed bundles of name-brands products. The following table shows our ShopHQ reporting segment merchandise mix as a percentage of net merchandise sales for the periods indicated.

Our ShopHQ promotional strategy is driven by offering our customers competitive pricing and special values, which drive new and existing customer engagement. During fiscal year 2020, we began offering static programming for our viewers, meaning we aired the same shows at the same times each week, and this has improved our customers viewership of our programming. Our core customers are primarily women between the ages of 45 and 70. We also have a smaller presence of male customers of similar age. We believe our customers purchases are driven by our engaging interactive video that demonstrates the product’s utility and quality, and our dependable, friendly customer experience.

ShopHQ distributes its interactive video content 24-hours a day primarily on U.S. linear television’s cable and satellite systems and it reached more than 79 million homes and 75 million homes during the three months ended October 30, 2021 and October 31, 2020. ShopHQ is also streamed 24 hours a day, 7 days a week on our ShopHQ website, broadcast over-the-air in certain markets and is also available on mobile and social channels and on various video streaming OTT and CTV platforms, such as Roku and Apple TV. This multiplatform distribution approach, complemented by our strong mobile and online efforts, ensures that our programming is available wherever and whenever our customers choose to shop.

We continue to increase the number of channels on existing distribution platforms and alternative distribution methods, including reaching deals to launch our programming on high definition (“HD”) channels. For example, in June 2021, we launched approximately 20 million new homes receiving our signal in high definition through an affiliation agreement with RNN. These homes are primarily in major television markets such as New York City, Los Angeles, San Francisco, Philadelphia, Dallas, Houston, Washington D.C. and Boston. We believe that our distribution strategy of pursuing additional channels in productive homes already receiving our programming is a more balanced approach to growing our business than merely adding new television homes in untested areas. We believe that having an HD feed of our service allows us to attract new viewers and customers.

We have entered into distribution agreements with cable operators, direct-to-home satellite providers, telecommunications companies and over-the-air broadcasters to distribute our television programming over their systems. The terms of the distribution agreements typically range from one to five years. During any fiscal year, certain agreements with cable, satellite or other distributors

may or have expired. Under certain circumstances, the cable operators or we may cancel the agreements prior to their expiration. Additionally, we may elect not to renew distribution agreements whose terms result in sub-standard or negative contribution margins. If the operator drops our service or if either we or the operator fails to reach mutually agreeable business terms concerning the distribution of our service so that the agreements are terminated, our business may be materially adversely affected. Failure to maintain our distribution agreements covering a material portion of our existing households on acceptable financial and other terms could materially and adversely affect our future growth, sales and earnings unless we are able to arrange for alternative means of broadly distributing our television programming.

During fiscal year 2021 and 2020, we entered into certain affiliation agreements with television providers for carriage of our television programming over their systems that includes television broadcast rights associated with our channel position on their systems. As a result, in accordance with GAAP, we recorded television broadcast rights assets of \$55.6 million and \$30.6 million during the nine months ended October 30, 2021 and October 31, 2020. The total liability relating to television broadcast rights was \$71.7 million and \$26.2 million as of October 30, 2021 and October 31, 2020, of which \$25.9 million and \$21.5 million was classified as current. We believe having consistent favorable channel positioning within the general entertainment area on the distributor's channel line-up improves our sales. We believe that a portion of our sales is attributable to purchases resulting from channel "surfing" and that a channel position near popular cable networks increases the likelihood of such purchases.

ShopHQ offers a balanced mix of merchandise to customers using interactive video and faces competition from a variety of sources, including, QVC and HSN. Both QVC and HSN are owned by Qurate Retail Inc. and each are substantially larger than ShopHQ in terms of annual revenues and customers, and the programming of each is carried more broadly to U.S. households, including high-definition bands and multi-channel carriage, than our programming. In addition, Multimedia Commerce Group, Inc., which operates Jewelry Television, also competes with us for customers in the Jewelry and Watches category. In addition, there are several smaller niche television shopping networks and startups in the television shopping arena who compete with us.

We anticipate continued competition for viewers and customers, for experienced television commerce and e-commerce personnel, for distribution agreements with cable and satellite systems and for vendors and suppliers - not only from television shopping companies, but also from other companies that seek to enter the television shopping and online retail industries, including telecommunications and cable companies, television networks, and other established retailers. We believe that ShopHQ's ability to be successful in the interactive video arena will depend on several key factors, including its ability to continue to curate compelling product assortments, capture and engage new and existing customers, and continually offer its interactive video on all the video distribution platforms available.

Emerging Business Reporting Segment

By leveraging ShopHQ's interactive video expertise, national scaled promotional power, expansive media and vendor relationships, customer experience and fulfillment capabilities, and financial resources, iMedia seeks to strategically build and acquire growing businesses that accelerate the Company's strategic goal of becoming the leading single-source partner to television advertisers and consumer brands seeking to entertain and transact with customers using interactive video.

Within the Emerging Business segment, the Company's operates its two, niche lifestyle television networks, ShopBulldogTV and ShopHealthHQ, its consumer brands that include J.W. Hulme, Kate & Mallory, Live Fit M.D. and Christopher & Banks, its online marketplace brands TheCloseout.com, and its media commerce services brands, iMDS and i3PL.

In terms of competitors for the Emerging Business reporting segment, we believe there is a growing number of competitors in the creation, distribution and consumption of streaming fact-based video content in the online, OTT and CTV marketplaces, and for the digital services offered in the online, OTT, CTV and advertising marketplaces. Today, we believe our competition in these arenas range from the larger media commerce service companies like Brightcove ("BCOV") and Channel Advisor ("ECOM"), to the smaller factual content streaming network providers like Curiosity Streams ("CURI"), and larger single-source digital services providers Shopify and Squarespace.

(a) Digital net sales percentage is calculated based on ShopHQ net sales that are generated from our website and mobile platforms, which are primarily ordered directly online.

Net Shipped Units

The number of net shipped units (shipped units less units returned) during the fiscal 2021 third quarter increased 15% from the prior year comparable quarter to approximately 1.9 million. For the nine months ended October 30, 2021, net shipped units increased by 13% from the comparable prior year period to approximately 5.4 million. The increase in net shipped units was mainly driven by the increase in net sales.

Average Selling Price

The average selling price ("ASP") per net unit was \$68 in the third quarter of fiscal 2021, a 17% increase from the prior year quarter. ASP increases in the third quarter ended October 30, 2021 were primarily driven by ASP increases in our jewelry and watches category. For the nine months ended October 30, 2021, the ASP was \$66, an 8% increase from the prior year comparable period. The ASP increases in the first nine months ended October 30, 2021 were primarily driven by ASP increases in our jewelry and watches category.

Return Rates

For the three months ended October 30, 2021, our return rate was 15.8% compared to 14.4% for the comparable prior year quarter, a 140-basis point increase. For the nine months ended October 30, 2021, our return rate was 16.0% compared to 14.5% for the

comparable prior year period, a 150-basis point increase. The increase in the return rate was primarily driven by a sales mix shift out of beauty and health into jewelry & watches, which has a higher return rate. We continue to monitor our return rates in an effort to keep our overall return rates commensurate with our current product mix and our ASP levels.

Total Customers

Total customers who have purchased over the last twelve months increased 20% over the prior year to approximately 1.2 million. The increase in total customers was mainly attributed to an increase in new customers compared to the prior year. We continue to focus on the following initiatives, among others, to increase our active customer file:

- introducing by appointment viewing "static programming," so viewers know when to watch;
- launching innovative programming, such as "Learning to Cook with Shaq," "GemHQ," "Invicta Collectors Room," and "Fashion Talk with Fatima"; and
- managing category specific customer growth priorities around ASP, product assortment and product margins.

Net Sales

Consolidated net sales, inclusive of shipping and handling revenue, for the fiscal 2021 third quarter were \$130.7 million, a 20% increase from consolidated net sales of \$109.0 million for the comparable prior year quarter. Consolidated net sales, inclusive of shipping and handling revenue, for the first nine months of fiscal 2021 were \$357.3 million, an 8% increase from consolidated net sales of \$329.4 million for the comparable prior year period.

Other: The \$1.8 million decrease during the third quarter of fiscal 2021 was driven by a decrease in shipping & handling revenue and higher discounts.

Emerging Business: The \$28.6 million increase during the third quarter of fiscal 2021 was mainly driven by revenue from business initiatives following the comparable prior year period, such as our launch of the ShopHealthHQ television network in September 2020, along with revenue from our newly acquired businesses of Christopher & Banks, iMDS and TheCloseout.com.

Digital and Mobile Net Sales

We believe that our interactive television video is a key driver of traffic to both our website and mobile applications whereby many of the online sales originate from customers viewing our interactive television video and then placing their orders online or through mobile devices. Our digital sales penetration, or the percentage of ShopHQ net sales that are generated from our website and mobile platforms, which are primarily ordered directly online, was 46.5% and 48.5% during the third quarter and first nine months of fiscal 2021 compared to 49.1% and 50.7% during the third quarter and first nine months of fiscal 2020. Overall, we continue to deliver strong digital sales penetration.

Distribution and selling expense increased \$11.8 million, or 12.2%, to \$108.9 million, or 30.5% of net sales during the first nine months of fiscal 2021 compared to \$97.1 million, or 29.5% of net sales for the comparable prior year period. Distribution and selling expense increased during the first nine months due to an increase in costs associated with the expansion of our Emerging Business segment which represented an increase of \$10.6 million and an increase in ShopHQ segment costs of \$1.2 million.

To the extent that our ASP changes, our variable expense as a percentage of net sales could be impacted as the number of our shipped units change. Program distribution expense is primarily a fixed cost per household. However, this expense may be impacted by

changes in the number of average homes, channels reached or by rate changes associated with changes in our channel position with carriers.

General and administrative expense for the fiscal 2021 third quarter increased \$6.0 million, or 129.3%, to \$10.7 million or 8.2% of net sales, compared to \$4.7 million or 4.3% of net sales for the comparable prior year fiscal quarter. General and administrative expense for the first nine months of fiscal 2021 increased \$9.4 million, or 62.1%, to \$24.6 million or 6.9% of net sales, compared to \$15.2 million or 4.6% of net sales for the comparable prior year period. Depreciation and amortization expense as a percentage of net sales for the third quarters of fiscal 2021 and fiscal 2020 was 7.5% and 7.3%. Depreciation and amortization expense for the first nine months of fiscal 2021 amounted to \$24.7 million, an increase of \$8.0 million, or 48.1%, compared to \$16.7 million for the same prior year period. Depreciation and amortization expense as a percentage of net sales for the first nine months of fiscal 2021 and 2020 was 6.9% and 5.0%. The increase in depreciation and amortization expense for the first nine months of fiscal 2021 was primarily due to increased amortization expense of \$7.8 million relating to the television broadcast rights obtained in fiscal 2021 and 2020.

Restructuring Costs

During the first quarter of fiscal 2020, the Company implemented and completed another cost optimization initiative, which eliminated positions across the ShopHQ segment, the majority of whom were employed in customer service, order fulfillment and television production. As a result of the first quarter fiscal 2020 cost optimization initiative, we recorded restructuring charges of \$209,000 for the first quarter of fiscal 2020, which relate primarily to severance and other incremental costs associated with the consolidation and elimination of positions across the ShopHQ segment. These initiatives were substantially completed as of October 30, 2021. The first quarter fiscal 2020 optimization initiative is expected to eliminate approximately \$16 million in annual overhead costs.

During the third quarter of fiscal 2021, the Company implemented an additional cost optimization initiative. As a result of the third quarter fiscal 2021 cost optimization initiative, the Company recorded restructuring charges of \$634,000 for the three-month period ended October 30, 2021, which relate primarily to severance associated with the additional consolidation and elimination of positions across the Company's ShopHQ segment. These initiatives were substantially complete and remain unpaid as of October 30, 2021.

Operating Loss

For the fiscal 2021 third quarter, we reported an operating loss of approximately \$6.0 million compared to operating loss of \$3.4 million for the fiscal 2020 third quarter. For the third quarter of fiscal 2021, ShopHQ's operating loss increased primarily as a result of decreased net sales and increased operating expenses offset partially by increased gross margins. operating expenses offset partially by increased gross margins. Emerging Business operating loss decreased during the first nine months of fiscal year 2021 primarily from an increase in net sales and related gross profits that increased by \$23.1 million, partially offset by an increase in distribution and selling expense of \$10.6 million and an increase in general and administrative expense of \$6.8 million. Depreciation and amortization expense for the first nine months of fiscal 2021 increased by \$8.0 million, or 48.1%, to \$24.7 million compared to \$16.7 million for the comparable prior year period.

Interest Expense

Total interest expense for the fiscal 2021 third quarter increased \$2.1 million, or 159.1%, to \$3.5 million compared to \$1.3 million for the comparable prior year period. The increase is attributable to both a higher average debt balance during the current year, as well as an increase in interest expense related to broadcast rights.

Total interest expense for the first nine months of fiscal 2021 increased \$2.2 million, or 56.2%, to \$6.1 million compared to \$3.9 million for the comparable prior year period. The increase is attributable to both a higher average debt balance during the current year, as well as increase interest expense related to broadcast rights.

Net Loss

For the fiscal 2021 third quarter, we reported a net loss of \$9.5 million, or (\$0.44) per share, on 21,503,340 weighted average basic common shares outstanding compared with net loss of \$4.7 million, or (\$0.39) per share, on 12,177,990 weighted average basic common shares outstanding in the fiscal 2020 third quarter. The net loss for the third quarter of fiscal 2021 included transaction, settlement and integrations costs totaling \$3.8 million, interest expense of \$3.5 million and restructuring costs of \$634,000. The net loss for the third quarter of fiscal 2020 included transaction, settlement and integrations costs totaling \$312,000 and interest expense of \$1.3 million.

The net loss for the first nine months of fiscal 2021 was \$17.3 million compared to a net loss of \$10.5 million for the comparable prior year period, an increase of 61.3%. Net loss for fiscal 2021 included transaction, settlement and integrations costs totaling \$5.8 million, interest expense of \$6.1 million, a loss on debt extinguishment of \$663,000 and restructuring costs of \$634,000. The net loss for the first nine months of fiscal 2020 included interest expense of \$3.9 million, transaction, settlement and integrations costs totaling \$886,000 and restructuring costs of \$264,000. For the third quarters of fiscal 2021 and fiscal 2020, the net loss reflects an income tax provision of \$15,000. For the first nine months of fiscal 2021 and fiscal 2020 the net loss reflects an income tax provision of \$45,000. The income tax provision for these periods relates to state income taxes payable on certain income for which there is no loss carryforward benefit available. We have not recorded any income tax benefit on previously recorded net losses due to the uncertainty of realizing income tax benefits in the future as indicated by our recording of an income tax valuation allowance. Based on our recent history of losses, a full valuation allowance has been recorded and was calculated in accordance with GAAP, which places primary importance on our most recent operating results when assessing the need for a valuation allowance. We will continue to maintain a valuation allowance against our net deferred tax assets, including those related to net operating loss carryforwards, until we believe it is more likely than not that these assets will be realized in the future.

Adjusted EBITDA Reconciliation

Adjusted EBITDA (as defined below) for the third quarter of fiscal 2021 was \$10.1 million compared to Adjusted EBITDA of \$6.4 million for the fiscal 2020 third quarter. For the nine-month period ended October 30, 2021, Adjusted EBITDA was \$26.5 million compared with \$15.5 million for the comparable prior year period.

We use "Adjusted EBITDA" to adequately assess the operating performance of our video and digital businesses and in order to maintain comparability to our analyst's coverage and financial guidance, when given. Management believes that Adjusted EBITDA allows investors to make a meaningful comparison between our core business operating results over different periods of time with those of other similar companies. In addition, management uses Adjusted EBITDA as a metric measure to evaluate operating performance under our management and executive incentive compensation programs. Adjusted EBITDA should not be construed as an alternative to operating income (loss), net income (loss) or to cash flows from operating activities as determined in accordance with GAAP and should not be construed as a measure of liquidity. Adjusted EBITDA may not be comparable to similarly entitled measures reported by other companies.

Financial Condition, Liquidity and Capital Resources

As of October 30, 2021, we had cash and restricted cash of \$53.5 million. In addition, under the Siena Credit Facility (as defined below), we are required to maintain a minimum of \$7.5 million of unrestricted cash plus unused line availability at all times. As of January 30, 2021, we had cash of \$15.5 million. For the first nine months of fiscal 2021, working capital increased \$86.7 million to \$120.4 million (see "Cash Requirements" below for additional information on changes in working capital accounts). The current ratio (our total current assets over total current liabilities) was 2.03 at October 30, 2021 and 1.16 at January 30, 2021.

The Company is required to keep cash in a restricted account in order to maintain letters of credit to both purchase inventory as well as secure the Company's corporate purchasing card program. Any interest earned is recorded in that period. The Company had \$2.2 million in restricted cash accounts as of October 30, 2021.

8.50% Senior Secured Notes

On September 28, 2021, we sold and issued \$80.0 million aggregate principal amount of 8.50% Senior Unsecured Notes due 2026 (the "2026 Notes") in an underwritten public offering (the "Offering"). The 2026 Notes pay interest quarterly in arrears on March 31, June 30, September 30 and December 31 of each year, commencing on December 31, 2021, at a rate of 8.50% per year, and are scheduled to mature on September 30, 2026. The 2026 Notes were issued in denominations of \$25 and are listed on The Nasdaq Stock Market, LLC under the symbol "IMBIL".

The net proceeds from the Offering were approximately \$73.7 million, after deducting the underwriting discount and estimated offering expenses payable by the Company (including fees and reimbursements to the underwriters). The Company used all of the net proceeds from the Offering to fund its acquisition of 123tv Invest GmbH and 123tv Holding GmbH (the "Acquisition").

The 2026 Notes are senior unsecured obligations of the Company. There is no sinking fund for the 2026 Notes. The Company may redeem the 2026 Notes for cash in whole or in part at any time at its option (i) on or after September 30, 2023 and prior to September 30, 2024, at a price equal to \$25.75 per note, plus accrued and unpaid interest to, but excluding, the date of redemption, (ii) on or after September 30, 2024 and prior to September 30, 2025, at a price equal to \$25.50 per note, plus accrued and unpaid interest to, but excluding, the date of redemption, and (iii) on or after September 30, 2025 and prior to maturity, at a price equal to \$25.25 per note, plus accrued and unpaid interest to, but excluding, the date of redemption. The Indenture provides for events of default that may, in certain circumstances, lead to the outstanding principal and unpaid interest of the 2026 Notes becoming immediately due and payable. If a Mandatory Redemption Event (as defined in the Supplemental Indenture) occurs, the Company will have an obligation to redeem the 2026 Notes, in whole but not in part, within 45 days after the occurrence of the Mandatory Redemption Event at a redemption price in cash equal to \$25.50 per note plus accrued and unpaid interest, if any, to, but excluding, the date of redemption.

Siena Lending Group

On July 30, 2021, we entered into a loan and security agreement (as amended through September 20, 2021, the "Loan Agreement") with Siena Lending Group LLC and the other lenders party thereto from time to time, Siena Lending Group LLC, as agent (the "Agent"), and certain additional subsidiaries of the Company, as guarantors thereunder. The Loan Agreement has a three-year term and provides for up to a \$80 million revolving line of credit. Subject to certain conditions, the Loan Agreement also provides for the issuance of letters of credit in an aggregate amount up to \$5,000,000 which, upon issuance, would be deemed advances under the revolving line of credit. Proceeds of borrowings were used to refinance all indebtedness owing to PNC Bank, National Association, to pay the fees, costs, and expenses incurred in connection with the Loan Agreement and the transactions contemplated thereby, for working capital purposes,

and for such other purposes as specifically permitted pursuant to the terms of the Loan Agreement. Our obligations under the Loan Agreement are secured by substantially all of its assets and the assets of its subsidiaries as further described in the Loan Agreement.

Subject to certain conditions, borrowings under the Loan Agreement bear interest at 4.50% plus the London interbank offered rate for deposits in dollars (“LIBOR”) for a period of 30 days as published in The Wall Street Journal three business days prior to the first day of each calendar month. There is a floor for LIBOR of 0.50%. If LIBOR is no longer available, a successor rate to be chosen by the Agent in consultation with the Company or a base rate.

The Loan Agreement contains customary representations and warranties and financial and other covenants and conditions, including, among other things, minimum liquidity requirements of not less than \$7,500,000, and then moving to \$15,000,000, beginning after the close of the acquisition of 123tv until the Company’s maximum senior net leverage ratio is less than 2.50:1.00, as of the end of any fiscal month. The Loan Agreement also requires the Company maintain a maximum senior net leverage ratio of not less than 3.50:1.00 as of the last day of the fiscal quarters ending approximately October 31, 2021 and January 31, 2022; 3.25:1.00 as of the last day of the fiscal quarter ending approximately April 30, 2022; 3.00:1.00 as of the last day of the fiscal quarter ending approximately July 31, 2022; 2.75:1.00 as of the last day of the fiscal quarters ending approximately October 31, 2022 and January 31, 2023 and 2.50:1.00 as of the last day of the fiscal quarters ending approximately April 30, 2023 and thereafter. In addition, the Loan Agreement places restrictions on the Company’s ability to incur additional indebtedness or prepay existing indebtedness, to create liens or other encumbrances, to sell or otherwise dispose of assets, to merge or consolidate with other entities, and to make certain restricted payments, including payments of dividends to shareholders. The Company also pays a monthly fee at a rate equal to 0.50% per annum of the average daily unused amount of the credit facility for the previous month.

As of October 30, 2021, the Company had total borrowings of \$20.0 million under its revolving line of credits with Siena. Remaining available capacity under the revolving line of credit as of October 30, 2021 was approximately \$45.2 million, which provided liquidity for working capital and general corporate purposes. As of October 30, 2021, the Company was in compliance with applicable financial covenants of the Siena Credit Facility and expects to be in compliance with applicable financial covenants over the next twelve months.

GreenLake Real Estate Finance

On July 30, 2021, two of our subsidiaries, VVI Fulfillment Center, Inc. and EP Properties, LLC (collectively, the “Borrowers”), and the Company, as guarantor, entered into that certain Promissory Note Secured by Mortgages (the “GreenLake Note”) with GreenLake Real Estate Finance LLC (“GreenLake”) whereby GreenLake agreed to make a secured term loan (the “Term Loan”) available to the Borrowers in the original amount of \$28,500,000. The GreenLake Note is secured by, among other things, mortgages encumbering the Company’s owned properties in Eden Prairie, Minnesota and Bowling Green, Kentucky (collectively, the “Mortgages”) as well as other assets as described in the GreenLake Note. Proceeds of borrowings were used to (i) pay fees and expenses related to the transactions contemplated by the GreenLake Note, (ii) make certain payments approved by GreenLake to third parties, and (iii) provide for working capital and general corporate purposes of the Company. We have also pledged the stock that we own in the Borrowers to secure its guarantor obligations.

The GreenLake Note is scheduled to mature on July 31, 2024. The borrowings, which include all amounts advanced under the GreenLake Note, bear interest at 10.00% per annum or, at the election of the Lender upon no less than 30 days prior written notice to the Borrowers, at a floating rate equal to the prime rate plus 200 basis points.

The Borrowers may prepay the GreenLake Note in full (but not in part) before July 30, 2022 (the “Lockout Date”) upon payment of a prepayment premium equal to the amount of interest that would have accrued from the date of prepayment through the Lockout Date. After the Lockout Date, the GreenLake Note may be prepaid in full or in any installment greater than or equal to \$100,000 without any prepayment penalty or premium on 90 days’ prior written notice from Borrowers to GreenLake.

The GreenLake Note contains customary representations and warranties and financial and other covenants and conditions, including, a requirement that the Borrowers comply with all covenants set forth in the Loan Agreement described above. The GreenLake Note also contains certain customary events of default.

As of October 30, 2021, there was \$28.5 million outstanding under the term loan with GreenLake, all of which was classified as long-term in the accompanying condensed consolidated balance sheet. Principal borrowings under the term loan are non-amortizing over the life of the loan.

PNC Credit Facility

On July 30, 2021, the PNC revolver and term loan were paid in full and the PNC Credit Facility was terminated through a refinancing with Siena and GreenLake (as discussed above). We recognized \$663,000 in related debt extinguishment costs in the fiscal 2021 which included both the write-off of remaining deferred financing costs in related to the PNC term loan and revolver, as well as a prepayment penalty per the PNC Credit Facility.

The PNC Credit Facility provided a revolving line of credit of \$70.0 million and also provided for a term loan. Maximum borrowings and available capacity under the revolving line of credit under the PNC Credit Facility were equal to the lesser of \$70.0 million or a calculated borrowing base comprised of eligible accounts receivable and eligible inventory.

The PNC Credit Facility also provided for the issuance of letters of credit in an aggregate amount up to \$6.0 million, which, upon issuance, would be deemed advances under the PNC Credit Facility. The PNC Credit Facility was secured by a first security interest in substantially all of the Company's personal property, as well as the Company's real properties located in Eden Prairie, Minnesota and Bowling Green, Kentucky.

The revolving line of credit under the PNC Credit Facility bore interest at either a Base Rate or LIBOR plus a margin consisting of between 2% and 3.5% on Base Rate advances and 3% and 4.5% on LIBOR advances. The term loan bore interest at either a Base Rate or LIBOR plus a margin consisting of between 4% and 5% on Base Rate term loans and 5% to 6% on LIBOR Rate term loans.

Interest expense recorded under the PNC Credit Facility was \$0 and \$1.6 million for the three and nine-month periods ended October 30, 2021 and \$743,000 and \$2.8 million for the three and nine-month periods ended October 31, 2020.

On February 18, 2021, we completed a public offering, in which we issued and sold 3,289,000 of our common stock at a public offering price of \$7.00 per share, including 429,000 shares sold upon the exercise of the underwriter's option to purchase additional shares. After underwriter discounts and commissions and other offering costs, net proceeds from the public offering were approximately \$21.2 million. We have used and intend to use the proceeds for general working capital purposes.

On August 28, 2020, we completed a public offering, in which we issued and sold 2,760,000 shares of our common stock at a public offering price of \$6.25 per share, including 360,000 shares sold upon the exercise of the underwriter's option to purchase additional shares. The additional closings occurred during the second quarter of fiscal 2020 with an aggregate cash purchase price of \$2.5 million, in which we issued 1,104,377 shares of our common stock, warrants to purchase an aggregate of 611,993 shares of our common stock at a price of \$2.66 per share, and fully-paid warrants to purchase an aggregate of 114,698 shares of our common stock at a price of \$0.001 per share. Other

Our ValuePay program is an installment payment program which allows customers to pay by credit card for certain merchandise in two or more equal monthly installments. Another potential source of near-term liquidity is our ability to increase our cash flow resources by reducing the percentage of our sales offered under our ValuePay installment program or by decreasing the length of time we extend credit to our customers under this installment program. However, any such change to the terms of our ValuePay installment program could impact future sales, particularly for products sold with higher price points. Please see "Cash Requirements" below for a discussion of our ValuePay installment program.

Cash Requirements

Currently, our principal cash requirements are to fund our business operations, which consist primarily of purchasing inventory for resale, funding ValuePay installment receivables, funding our basic operating expenses, particularly our contractual commitments for cable and satellite programming distribution, and the funding of necessary capital expenditures. We closely manage our cash resources and our working capital. We attempt to manage our inventory receipts and reorders in order to ensure our inventory investment levels remain commensurate with our current sales trends. We also monitor the collection of our credit card and ValuePay installment receivables and manage our vendor payment terms in order to more effectively manage our working capital which includes matching cash receipts from our customers, to the extent possible, with related cash payments to our vendors. ValuePay remains a cost-effective promotional tool for us. We continue to make strategic use of our ValuePay program in an effort to increase sales and to respond to similar competitive programs.

We also have significant future commitments for our cash, primarily payments for cable and satellite program distribution obligations and the eventual repayment of our credit facility. As of January 30, 2021, we had contractual cash obligations and commitments primarily with respect to our cable and satellite agreements, credit facility, operating leases, and capital leases totaling approximately \$181.2 million over the next five fiscal years.

Our ability to fund operations and capital expenditures in the future will be dependent on our ability to generate cash flow from operations, maintain or improve margins, decrease the rate of decline in our sales and to use available funds from our Siena Credit Facility. Our ability to borrow funds is dependent on our ability to maintain an adequate borrowing base and our ability to meet our credit facility's covenants (as described above). Accordingly, if we do not generate sufficient cash flow from operations to fund our working capital needs, planned capital expenditures and meet credit facility covenants, and our cash reserves are depleted, we may need to take further actions that are within the Company's control, such as further reductions or delays in capital investments, additional reductions to our workforce, reducing or delaying strategic investments or other actions. Additionally, the COVID-19 and related variant outbreaks continues in both the U.S. and globally and is adversely affecting the economy, financial markets and has negatively impacted, and may continue to impact demand for our merchandise and impact our stock price. As a result, it is difficult to predict the overall impact of COVID-19 on our business and financial results. Despite these adverse impacts of COVID-19, we believe the COVID-19 pandemic has been impacting our business less than other media companies because of our direct-to-consumer business model that serves home-bound consumers who seek to buy goods without leaving the safety of their homes.

For the nine months ended October 30, 2021, net cash used for operating activities totaled \$48.9 million compared to net cash provided by operating activities of approximately \$9.1 million for the comparable fiscal 2020 period. Net cash (used for) provided by operating activities for the fiscal 2021 and 2020 periods reflects a net loss, as adjusted for depreciation and amortization, share-based payment compensation, amortization of deferred financing costs, payments for television broadcast rights, and inventory impairment write-down.

In addition, net cash used for operating activities for the nine months ended October 30, 2021 reflects decreases in accounts payable and accrued liabilities, accounts receivable and deferred revenue and increases in inventories and prepaid expenses. Inventories increased as we prepare for continued revenue growth in 2021. Accounts receivable decreased during the first nine months of fiscal 2021 due to collections on outstanding receivables resulting from our seasonal high fourth quarter. Accounts payable and accrued liabilities decreased during the first nine months of fiscal 2021 primarily due to the timing of paying for cable distribution fees and inventory purchases. Prepaid expenses and other increased primarily due to our new salesforce implementation in 2021.

Net cash used for investing activities totaled \$36.7 million for the first nine months of fiscal 2021 was comprised primarily of the \$3.5 million Christopher and Banks acquisition payment, \$6.0 million Famjams note funding and \$20.0 million for the Portal and

Advertising business acquisition payment and compares to net cash used for investing activities of \$3.7 million for the comparable fiscal 2020 period. For the first nine months ended October 30, 2021 and October 31, 2020, expenditures for property and equipment were \$7.2 million and \$3.7 million. Capital expenditures made during the periods presented relate primarily to expenditures made for development, upgrade and replacement of computer software, order management, merchandising and warehouse management systems; related computer equipment, digital broadcasting equipment, and other office equipment; warehouse equipment, production equipment and building improvements. Principal future capital expenditures are expected to include: the development, upgrade and replacement of various enterprise software systems; equipment improvements and technology upgrades at our distribution facility in Bowling Green, Kentucky; security upgrades to our information technology; the upgrade of television production and transmission equipment; and related computer equipment associated with the expansion of our television shopping business and digital commerce initiatives.

Net cash provided by financing activities totaled \$123.6 million for the nine months ended October 30, 2021 and related primarily to proceeds from the issuance of common stock and warrants of \$61.4 million, proceeds on Siena revolving loan of \$56.7 million and proceeds on GreenLake term loan of \$28.5 million. Net cash used for financing activities included primarily \$41.0 million for full payment on the PNC revolving loan and \$12.4 million on the PNC term loan. For the comparable period, the first nine months ended October 31, 2020, net cash provided by financing activities totaled \$3.2 million for the nine months ended October 31, 2020 and related primarily to proceeds from the issuance of common stock and warrants of \$20.0 million and proceeds from our PNC revolving loan of \$14.4 million, offset by principal payments on the PNC revolving loan of \$28.8 million, principal payments on our PNC term loan of \$2.0 million, the remaining payment for our fiscal 2019 business acquisition totaling \$238,000, finance lease payments of \$75,000, payments for common stock issuance costs of \$39,000 and tax payments for restricted stock unit issuances of \$8,000

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

As of the end of the period covered by this report, management conducted an evaluation, under the supervision and with the participation of our chief executive officer and chief financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")). Based on this evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective as of such date to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is accumulated and communicated to management, including our principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosures.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved from time to time in various claims and lawsuits in the ordinary course of business, including claims related to products, product warranties, employment, intellectual property and consumer protection matters. In the opinion of management, none of the claims and suits, either individually or in the aggregate, is reasonably expected to have a material adverse effect on our operations or consolidated financial statements.

ITEM 1A. RISK FACTORS

See Part I. Item 1A., "Risk Factors," of the Company's annual report on Form 10-K for the year ended January 30, 2021, for a detailed discussion of the risk factors affecting the Company. There have been no material changes from the risk factors described in the annual report.

As a result of the acquisition of the 1-2-3tv Group, the Company's operations have expanded to international markets, including Germany and Austria, which exposes us to significant new risks.

The tv Inv123est GmbH and 123tv Holding GmbH operate in Germany and Austria, which requires significant resources and management attention and subjects us to legislative, judicial, accounting, regulatory, economic, and political risks in addition to those we already faced in the United States. We have no prior experience operating internationally. There are significant risks and costs inherent in doing business in international markets, including:

- the need to vary pricing and margins to effectively compete in international markets;
- the need to adapt and localize products for specific countries, including obtaining rights to third-party intellectual property used in each country;
- misjudging the markets and competitive landscape of foreign jurisdictions;
- the ability to protect and enforce intellectual property rights abroad;
- difficulties in understanding and complying with local laws, regulations, and customs in other jurisdictions;
- compliance with anti-bribery laws, such as the U.S. Foreign Corrupt Practices Act by us, our employees, and our business partners;
- complexity and other risks associated with current and future (including changing) legal requirements in other countries, including legal requirements related to consumer protection, consumer product safety, and data privacy frameworks, such as the E.U. General Data Protection Regulation;
- difficulties in integrating and coordinating with international practices, operations and employee cultures with those in the U.S.;
- greater potential for corruption and bribery;
- varying levels of internet technology adoption and infrastructure, and increased or varying network and hosting service provider costs;
- tariffs and other non-tariff barriers, such as quotas and local content rules, as well as tax consequences including the complexities of foreign value added tax systems and restrictions on the repatriation of earnings;
- increased financial accounting and reporting burdens and complexities;
- fluctuations in currency exchange rates and the requirements of currency control regulations, which might restrict or prohibit conversion of other currencies into U.S. dollars; and
- political or social unrest or economic instability, terrorist attacks and security concerns in general in a specific country or region in which we operate.

The occurrence of any one of these risks could negatively affect our international business and, consequently, our results of operations generally. Additionally, operating in international markets also requires significant management attention and financial resources. We cannot be certain that the investment and additional resources required in establishing, acquiring, or integrating operations in other countries will produce desired levels of revenues or profitability.

The extent to which the COVID-19 outbreak and measures taken in response thereto in international markets in which we operate could impact our business, results of operations and financial condition and will depend on on-going and future developments and outcomes, which are highly uncertain and cannot be predicted.

Our business operations and financial results internationally may be adversely impacted by health epidemics, pandemics, and similar outbreaks. Despite our efforts to manage these impacts, their ultimate impact also depends on factors beyond our knowledge or control, including the duration and severity of any such outbreak and actions taken to contain its spread and mitigate its public health effects. Governments in international markets in which we will operate may impose restrictions on our operations that are more extensive and harmful to us than in the U.S.

The COVID-19 pandemic could have adverse impacts on our international business operations by limiting our employees' ability to work and travel (including between the U.S. and our international locations), disrupting our third-party technology providers, or

[Table of Contents](#)

causing internal operational workflow to change, among other potentially unforeseen circumstances given the unprecedented and rapidly evolving situation.

Additionally, the COVID-19 pandemic may continue to cause significant disruptions and changes in the economic or political conditions in international markets in which we operate. This may cause significant volatility in demand for our products due to, among other adverse impacts, disruption and downturns in our programming and supply chains or our customers' ability to pay for products sold by our company when due or in full.

Our results of domestic operations may be adversely impacted by the COVID-19 pandemic, and the duration and extent to which it will impact our results of operations remains uncertain. Our operations may also be limited or impacted by government monitoring and/or regulation of product sales in connection with the COVID-19 pandemic.

The global spread of COVID-19 and its variants has created significant volatility, uncertainty and economic disruption. The extent to which the COVID-19 pandemic impacts our business, operations, financial results and financial condition will depend on numerous evolving factors which are uncertain and cannot be predicted, including: the duration and scope of the pandemic; governmental, business and individuals' actions taken in response; the effect on our customers and customers' demand for our services and products; the effect on our suppliers and disruptions to the global supply chain; our ability to sell and provide our services and products, including as a result of travel restrictions and people working from home; disruptions to our operations resulting from the illness of any of our employees, including employees at our fulfillment center; restrictions or disruptions to transportation, including reduced availability of ground or air transport; the ability of our customers to pay for our services and products; and any closures of our and our suppliers' and customers' facilities. In addition, the impact of COVID-19 on macroeconomic conditions may impact the proper functioning of financial and capital markets, commodity and energy prices, and interest rates. If any of these effects of the COVID-19 pandemic were to worsen, it could result in lost or delayed revenue to us. Even after the COVID-19 pandemic subsides, we may continue to experience adverse impacts to our business as a result of any economic recession or depression that has occurred or may occur in the future. Any of these events could amplify the other risks and uncertainties described in the Annual Report on Form 10-K and could materially adversely affect our business, financial condition, results of operations and/or stock price.
